Sitco's Data Center provides solutions for organizations of any size!

"Since we began working with Sitco we have had no issues. Everything has run smoothly and we've experienced connectivity success that has been steady from day one. Our business model demands uptime and Sitco has met that challenge." – Kim Angermeier, CEO, MaddenCo Inc.

EXPLORE THE BENEFITS

COLOCATION

Take advantage of our state-of-the-art Data Center facility by colocating your equipment. Sitco colocation solutions allow you to host your hardware on a network that is architecturally designed to provide the highest standards of performance, availability, security, and immunity from external influences.

DISASTER RECOVERY

Is your business prepared and protected from the worse-case scenario? We provide a wide variety of solutions that make it easy for you to recover your data and/or continue operating your business in the event of a disaster. Local and geographically diverse plans available.

HOSTED VOIP

Hosted VOIP service gives you the confidence to conduct your business knowing that your communications solution is reliable, cost efficient and will transition seamlessly as your company expands. Hosted VOIP for business provides remarkable savings, privacy, convenience, mobility and reliability.

REMOTE BACKUP

Maximize business continuity and minimize your recovery time objective with Sitco's Online Backup service. Combining state-of-the-art software and a high availability Data Center, Sitco provides an affordable enterprise-class Online Backup service with disaster recovery capabilities. SAN solutions available.

VIRTUAL DESKTOPS

Virtual desktops simplify desktop management and reduces typical problems associated with supporting traditional desktop computers. Desktop virtualization can dramatically reduce total cost of ownership of desktop hardware, licensing, and support by as much as 40%.

VIRTUAL SERVERS

Time for a hardware refresh? Don't want to dedicate the time or resources to virtualize in-house, yet desire the many benefits to virtualization? Sitco's VMware vSphere Enterprise Plus cluster offers the ultimate in availability, scalability, and flexibility.
